## Gordon Sloane Demo

---

By Gordon Sloane

Gordon Sloane presented a very interesting demo about his journey into wood turning and the types of turning that he has evolved into recently after attending a class at Arrowmont School presented by Jay Paul Pannel. He explained the steps required including thin turning of the piece to be pierced and how to index it so the layout is correctly spaced. He also demonstrated piercing with his high speed piercing tool. He went on to explain different types of embellishment that he has been trying to obtain the best finished look. Good job Gordon.
